INTERNSHIP EXPERIENCE

Data Analysis Intern – Auspify Technologies | Remote Jul 2026 – Aug 2026

- Cleaned, organised, and validated a Netflix dataset containing movies and TV shows metadata, handling missing values, duplicates, and inconsistent formats.
- Performed data analysis using Python and SQL to extract insights on content trends, genre distribution, and release patterns.
- Produced structured data summaries and reports to support business decision-making.

Python Developer Intern – Global Stream Solution | Onsite Apr 2026 – Jun 2026

- Developed and deployed Python-based solutions, collaborating with teams to deliver accurate, production-ready outputs.
- Gained experience in data processing, automation, and working with structured data in a professional environment.

PROJECTS

Marketing Analytics Business Case – ShopEasy 2026

Python, SQL, Power BI, Excel

- Analysed declining customer engagement and conversion rates for an online retail business by examining campaign performance metrics, customer reviews, and social media feedback.
- Identified key KPIs including Conversion Rate, Customer Engagement Rate, Average Order Value (AOV), and Customer Feedback Score to measure marketing effectiveness.
- Delivered actionable insights on funnel drop-off points, content engagement trends, and recurring customer feedback themes to guide marketing strategy improvements.

Shopping Behaviour Analysis 2025

Python, SQL, Power BI, Excel

- Cleaned, validated, and analysed a dataset of 10,000+ customer records, handling NULL values, deduplication, and data standardisation.
- Used SQL queries to extract, transform, and consolidate data from multiple sources.

- Built a Power BI dashboard tracking 5+ KPIs including customer segments, basket size, and purchase frequency.

CERTIFICATIONS

✓ Data Analyst Certification – Alex The Analyst (Alex Freberg)
